ENGLAND

On the death of the last of the Marian Bishops in the reign of Elizabeth, the Catholic Hierarchy in England became extinct. It was restored Sept. 29, 1850, by Letters Apostolic (*Universalis Ecclesiæ*) of Pius IX. when the Metropolitan See was transferred to Westminster. By Letters Apostolic of Oct. 28, 1911, of His Holiness Pius X. the Province of Westminster, which had fifteen Suffragan Sees, was divided into three Provinces—Westminster, Birmingham and Liverpool. With Westminster remain the dioceses of Northampton, Nottingham, Portsmouth, and Southwark. To Birmingham were assigned the dioceses of Clifton, Newport, Plymouth, Shrewsbury and Menevia. The remaining Sees of Hexham and Newcastle, Leeds, Middlesbrough, and Salford were assigned to Liverpool. On February 7, 1916, Newport was raised to archiepiscopal rank under the name of Cardiff; and, with Menevia as a Suffragan See, was formed into a fourth province. In 1917 the county of Essex was separated from Westminster and made into a separate diocese (Brentwood) of the Province of Westminster. In 1925 the See of Lancaster was carved out of Liverpool and Hexham and Newcastle.

The Catholic Population of England is about 2,000,000.

Why Gregg Commercial Textbooks Lead

Gregg texts have reached their present commanding position through years of research and investigation made with a view to finding the latest and best in commercial education. Gregg texts cover every phase of junior and senior high school commercial education.

Every Gregg textbook is written on the firing line. Every page is tested in actual classrooms before it appears in print. Every principle set forth has been proved over and over again.

Before selecting a commercial text, write us for a complete catalog of publications, or sample copies of books in which you are interested.

AEOLIAN-VOTEY ORGANS

Typical Aeolian—Votey Console

THE firms of Roosevelt, and Farrand and Votey form for the Aeolian-Votey Organ a background which is in itself a guarantee that in the essentials of organ construction there can be nothing greater.

Superb tonal quality is their distinguishing characteristic. The distinction they have achieved in this respect has been gained through the careful study of the acoustical problems present in the individual church and through artistic voicing and a responsive and dependable electric action.

Because of their high mechanical and electrical development they have attained an instant crisp response that is unique in the organ field. In all departments of the organ itself, as well as in the thoroughly modern and complete equipment of their Consoles they will meet the utmost requirements of the most critical and exacting Organ Virtuosi.

You are cordially invited to inspect them. We will be glad to send you our attractively illustrated Catalog without obligation on your part.

THE OSTENSORIUM illustrated here was recently designed and executed for the Very Reverend Monsignor Joseph A. Casey, Pastor of Our Lady of Mt. Carmel Church, Chicago, Ill., by a European Guild of Gold- and Silversmiths whom we exclusively represent in this country. It is in Gothic Style, with four figures representing God, the Father, St. Peter, St. Paul and the Spirit of the Holy Ghost. The complete Ostensorium is richly hand-wrought and adorned with many real stones. The entire piece is in Sterling Silver, heavily gold-plated, and stands 25½ inches high. This Ostensorium is truly a masterpiece of rare charm and incomparable workmanship.

REV. NEWTON THOMPSON, S.T.D.

Volume I. Cloth; Large 8vo.; XVI+647, Pages **Net \$4.00**

Volume II. Cloth; Large 8vo.; X+719 Pages **Net \$4.00**

Volume III. (In preparation)

It is impossible to give even a fair idea of the contents and method of this great work within a brief notice. The reader will find that, in spite of the prevailing critical and apologetic tone of the work, the devotional element is not neglected, and this life of Christ can be read with genuine edification.

Types and Sizes

Bradley Washfountains are made in six types. Each type can be furnished in either of two sizes—32 in. or 54 in. diameter. All are equipped with the Bradley hot and cold water mixer unless otherwise specified.

Type A Circular. The most popular type because of its simplicity and freedom from exposed pipes, valves, etc. The supply and vent are through the floor, within the pedestal.

Type B. Same as Type A except with overhead supply and vent connections, desirable in remodeling where concealed piping is impractical.

Type C. Semi-circular. For side-wall installation in small rooms or where piping must be in wall. For washrooms of limited space desiring the advantages of Bradley Washfountains.

Type D. Same as Type A except water flow value is foot-controlled. Insures maximum economy of water.

Type F. Identical to Type C except with foot control of operating valve.

Type O. Similar to Type B except with vent from below for installation where plumbing regulations permit.

CLEANLINESS FOR THE MODERN WASHROOM

Bradley Washfountains promote cleanliness, save water and floor space, reduce maintenance costs, and add to the attractiveness of any washroom.

They are self-flushing—easily kept clean. Their deep sides prevent suds and dirty water from dripping on the floor—keep boisterous children from splashing up the room to add to janitor work.

The circular, roomy bowl of a Bradley Washfountain conserves space and saves water because ten

pupils can wash at once in the same amount of water one would use. Water savings as high as 90% have been obtained by installing Bradleys.

Bradley Washfountains come in attractive colors and are made of three materials—White Marmorite, Colored Marmorite, and Granito. *Marmorite*, which has all the beautiful and durable qualities of genuine marble, is non-absorbent, unaffected by the action of water and soap. *Granito*, a special composition as hard as stone, is likewise impervious to water and grease. Any type of Bradley Washfountain can be equipped with a wall or thermostatic mixer to secure constant temperature of water. Liquid soap dispensers, soap trays or Ivory soap dispensers can be supplied.

Roughing-in measurements and specifications will be furnished, on request together with the Bradley Catalog. To avoid error and save time when ordering Bradley Washfountains, be sure to specify type, size and grade of material desired.

..... swish and the dirt is gone

AS you go over discolored places with a cloth dipped in a solution of BAN, every bit of dirt is removed. So quickly, so easily, does this compound clean that you stand there amazed.

One-eighth cup of BAN, the white powder, is enough for a pailful of cleaning liquid. It goes five times as far as ordinary soap and grit compounds.

Saving time and labor, replacing compounds which serve but a few purposes, BAN with its thousand uses gives you maximum cleaning economy—and efficiency.

Try it on your painted walls, woodwork, floors, windows, carpets, sinks, bowls, linoleums, clothes, dishes—everything that can stand plain water. BAN is guaranteed non-injurious.

Strong enough to remove grime and clinging discolorations, BAN is at the same time mild and safe.

A Chime or Carillon of Bells should not be a mere aggregation of so many notes, but should be in every sense a set of sweet, musical, mellow-toned Bells, a pleasure to hear and a joy forever. Such is our special aim and effort in every set of Bells manufactured, and the quality of our work is the wonder of every purchaser. Our chime and carillon bells are attuned so that the same fullness, tone-richness and brilliancy obtain throughout the entire set.

The Ordinary and the Unusual----

REPOSITORY BUILD FOR ST. JAMES CHURCH, PHILADELPHIA
This year we are adding Valances to richen the background. As it stands it would cost about \$800. Most of which cost is in the material.

in supplying Church Vestiture

Most everyone can supply the "ordinary," but the "unusual" is beyond their grasp.

In the ordinary sense a Chasuble is just a Chasuble, looks all right, costs so much and sells for so much. It is shown to a customer and if he doesn't like it, he is shown something else. Eventually he buys or looks elsewhere.

He gets the impression that he can't get what he wants, so he must take what he can get.

Yet it costs no more to get exactly what he wants.

Because we manufacture everything ourselves and the so called "unusual" is commonplace to us.

And we can make very prompt delivery.

Satisfaction Guaranteed.

Special interior illumination by Curtis Engineers creates this unusual effect in the Church of the Transfiguration, Philadelphia, Pa.

Lighting Is Part of the Service

IN no other type of building is the beauty, comfort and utility of Curtis Lighting so appropriately applied as in the house of worship.

Entire churches, or any part of them, magnificent altars, art windows, stations of the cross, and other decorative features are given their due prominence and an added richness under properly applied illumination. Thus the service gains an inspiring beauty and quiet dignity.

Curtis illuminating engineers, located in all principal cities, are at your disposal to plan your lighting—with regard to its appropriateness and serviceability in your church. The breadth of our experience gained by lighting many hundreds of churches, will be helpful to you.

A New Catholic Dictionary

THE editors of The Catholic Encyclopedia announce a new and complete Catholic Dictionary for popular use.

In one volume of about 800 pages, this new dictionary will contain 7,500 articles:

1° Definitions and brief explanations of every subject in religion, in doctrine, the Bible, rites and ceremonies, church law, religious orders and congregations.

2° Short articles on the present state and statistics of the Church in each country, on every diocese in English-speaking countries, on cities and places bearing religious names, or notable for their religious characteristics now or in the past, on Missions in every part of the world, on the various Churches, heresies, and false religions.

3° Subjects in History, showing what the Church has done for civilization, points of history in dispute, biographies of historical personages, saints, popes, prelates, priests, and of Catholic men and women who achieved notable things in various fields of human activity.

4° The very many terms and subjects in philosophy, psychology, ethics, social science, and education, which have a special religious interest and on which there is a distinct religious teaching or position.

5° The arts which have served religion and in turn derived from religion their highest inspiration: painting, architecture, sculpture, music, the minor arts, and above all, literature, and the most distinguished Catholic artists and authors.

6° Science and the relations between it and religion treated in a special manner. Instead of debating whether truth in one sphere of human knowledge can conflict with truth in other spheres, neat articles on each science, telling what Catholics have done for it, will show the absurdity of such an expression as conflict between religion and science.

The Catholic Encyclopedia has made possible an adequate Catholic Dictionary and ever since its completion the editors have been preparing one, with the advantages of controlling its copyright, of their experience, and of their association with writers in every part of the world. Now that the changes of the past decade and a half have given way to more settled conditions, it is possible to complete the work in a brief time, and to publish a Dictionary new, complete and up-to-date, unlike anything of the kind previously attempted.

The new Dictionary will contain the ready answer to the thousand and one questions, and the solution to the many difficulties, which occur to Catholic and Protestant alike. It will appeal by its pictures to the imagination, as well as by its text to the intellect. It will be a complete reference to the many valuable books which have been published during the past twenty years, in a word, a *vade mecum*, a veritable household treasury of information about everything that is in any way connected with religion, the most precious thing in life.

In view of the misunderstandings and misrepresentations of the Catholic religion which marred the late presidential campaign, this is the one book needed today by Catholics and well disposed Protestants alike.

Not everyone can afford to have The Catholic Encyclopedia. The low price of this new Dictionary puts it within reach of all.

Three hundred writers are now engaged in compiling and revising this Dictionary. A prospectus exemplifying 61 of the 7,500 articles to be contained in the NEW CATHOLIC DICTIONARY and also the prices and special terms on which the special first edition may be obtained will be sent upon request.

The above cut shows the Main Altar, Communion Rail and part of the pews built and installed by us for The Carmelite Fathers, Oklahoma City, Okla., Rev. Raymond Gomez, o. c. d., Pastor. We also furnished two side altars which harmonize with the Main Altar. The altars and railing were a combination of Wood, Marble, Onyx and Mosaic. All statues and reliefs were carved in wood. The center niche on the main Altar was constructed of Art Glass with electric illumination from the rear to bring out its beauty.

Everything for the Sanctuary

“ALL WORKS of taste must bear a price in proportion to the skill, taste, time, expense and risk attending their invention and manufacture. Those things called dear are, when justly estimated, the cheapest; they are attended with much less profit to the artist than those which everybody calls cheap.

Beautiful forms and composition are not made by chance nor can they ever, in any material, be made at small expense. A composition for cheapness and not for excellence of workmanship is the most frequent and certain cause of the rapid decay and entire destruction of arts and manufacture.”—RUSKIN.

Decorative and Firesafe Metal Ceilings and Walls for Churches

The interior decorating problems of all types of churches are being met and solved with Milcor Metal Ceilings and Walls. There are over 200 attractive Milcor designs to choose from—designs suitable to every type of architecture.

Milcor "Invisible Joint" Metal Ceilings and walls provide many complete decorative schemes for church interiors that may be carried out in appropriate color schemes. Metal walls and ceilings make interiors firesafe, easy to clean and refinish, and their cost is economical. It will pay you to send for our catalog illustrating the complete line.

Permanently Beautiful Interiors Made By Plastering On *MILCOR* Metal Lath

The Milcor Manual will give your contractor complete descriptions of all types of Milcor Metal Lath as well as other Milcor Fireproofing Materials. Write for it.

Our illustrated book, *Modern Modes in Better Plastering*, will show you how plaster itself can decorate and beautify interiors of all types. Sent on request.

For permanently beautiful plastered church interiors, it is economical to use Milcor Stay-Rib Metal Lath as the base. Strands of metal expanded at right angles to the ribs provide necessary stiffness and strength. The Stay-Rib design forms a rigid steel backbone which reinforces the plaster and prevents cracks.

For forming arched or specially designed doorways, Milcor Metal Lath is the ideal base for plaster. It is pliable enough for forming purposes yet gives the necessary strength for permanent plaster effects.
